General Information

History of Wake Forest University

Wake Forest Institute was founded in 1834 by the Baptist State Convention of North Carolina. The school opened its doors on February 3 with Samuel Wait as principal. Classes were first held in a farmhouse on the Calvin Jones plantation in Wake County, North Carolina, near which the village of Wake Forest later developed.

Rechartered in 1838 as Wake Forest College, Wake Forest is one of the oldest institutions of higher learning in the state. The School of Law was established in 1894, followed by a two-year medical school in 1902. Wake Forest was exclusively a college for men until World War II, when women were admitted for the first time.

In 1941, the medical school moved to Winston-Salem to become affiliated with North Carolina Baptist Hospital and was renamed the Bowman Gray School of Medicine. In 1946, the trustees of Wake Forest and the Baptist State Convention of North Carolina accepted a proposal by the Z. Smith Reynolds Foundation to relocate the College to Winston-Salem. The late Charles and Mary Reynolds Babcock donated much of the R.J. Reynolds family estate as the site for the campus and building funds were received from many sources. From 1952 to 1956, the first fourteen buildings were constructed in Georgian style on the new campus. The move to Winston-Salem took place in the summer of 1956; the original, or "old" campus, is now home to Southeastern Baptist Theological Seminary.

Following the move, Wake Forest grew considerably in enrollment, programs, and stature and became a University in 1967. The School of Business Administration, first established in 1948, was named the Charles H. Babcock School of Business Administration in 1969 and admitted its first graduate students in 1971. In 1972, the school enrolled only graduate students and the name was changed to the Babcock Graduate School of Management; departments of business and accountancy and economics were established in the College. In 1980, the Department of Business and Accountancy was reconstituted as the School of Business and Accountancy; the name was changed to the Wayne Calloway School of Business and Accountancy in 1995. The Calloway and Babcock schools were integrated as the Wake Forest University Schools of Business in 2009, combining the faculties of the business schools to serve undergraduate and graduate students.

The Division of Graduate Studies, established in 1961, is now organized as the Graduate School and encompasses advanced work in the arts and sciences on both the Reynolda and Bowman Gray campuses. In 1997, the medical school was renamed the Wake Forest University School of Medicine; its campus is now known as the Bowman Gray Campus. The School of Divinity was established in 1999.

Wake Forest honors its Baptist heritage in word and deed. The University will fulfill the opportunities for service arising out of that heritage. Governance is now by an independent Board of Trustees; there are advisory boards of visitors for the College and each professional school. A joint board of University trustees and trustees of the North Carolina Baptist Hospital is responsible for Wake Forest University Baptist medical Center, which includes the hospital and the medical school.

Statement of Mission and Purpose

Wake Forest is a university dedicated to the pursuit of excellence in the liberal arts and in graduate and professional education. Its distinctiveness in its pursuit of its mission derives from its private, coeducational, and residential character; its size and location; and its Baptist heritage. Each of these factors constitutes a significant aspect of the unique character of the institution.

The University is now comprised of six constituent parts: Wake Forest College; the Graduate School of Arts and Sciences; the School of Law, the School of Medicine, the School of Business and the School of Divinity. It seeks to honor the ideals of liberal learning, which entail commitment to transmission of cultural heritages; teaching the modes of learning in the basic disciplines of human knowledge; developing critical appreciation of moral, aesthetic and religious values; advancing the frontiers of knowledge through in-depth study and research; and applying and using knowledge in the service of humanity.

Wake Forest has been dedicated to the liberal arts for over a century and a half; this means education in the fundamental fields of human knowledge and achievement, as distinguished from education that is technical or narrowly vocational. It seeks to encourage habits of mind that ask "why," that evaluate evidence, that are open to new ideas, that attempt to understand and appreciate the perspectives of others, that accept complexity and grapple with it, that admit error, and that pursue truth. Wake Forest College has by far the largest student body in the University, and its function is central to the University's larger life. The College and the Graduate School are most singularly focused on learning for its own sake; they, therefore, serve as exemplars of specific academic values in the life of the University.

Beginning as early as 1894, Wake Forest accepted an obligation to provide professional training in a number of fields, as a complement to its primary mission of liberal arts education. This responsibility is fulfilled in the conviction that the

humane values embodied in the liberal arts are also centrally relevant to the professions. Professional education at Wake Forest is characterized by a commitment to ethical and other professional ideals that transcend technical skills. Like the Graduate School, the professional schools are dedicated to the advancement of learning in their fields. In addition, they are specifically committed to the application of knowledge to solving concrete problems of human beings. They are strengthened by values and goals which they share with the College and Graduate School, and the professional schools enhance the work of these schools and the University as a whole by serving as models of service to humanity.

Wake Forest was founded by private initiative, and ultimate decision-making authority lies in a privately appointed Board of Trustees rather than in a public body. Funded to a large extent from private sources of support, it is determined to chart its own course in the pursuit of its goals. As a co-educational institution, it seeks to "educate together" persons of both sexes and from a wide range of backgrounds --- racial, ethnic, religious, geographical, socioeconomic, and cultural. Its residential features are conducive to learning and the pursuit of a wide range of co-curricular activities. It has made a conscious choice to remain small in overall size; it takes pride in being able to function as a community rather than a conglomerate. Its location in the Piedmont area of North Carolina engenders an ethos that is distinctively Southern, and more specifically North Carolinian. As it seeks further to broaden its constituency and to receive national recognition, it is also finding ways to maintain the ethos associated with its regional roots.

Wake Forest is proud of its Baptist and Christian heritage. For more than a century and a half, it has provided the University an indispensable basis for its mission and purpose, enabling Wake Forest to educate thousands of ministers and lay people for enlightened leadership in their churches and communities. Far from being exclusive and parochial, this religious tradition gives the University roots that ensure its lasting identity and branches that provide a supportive environment for a wide variety of faiths. The Baptist insistence on both separation of church and state and local autonomy has helped to protect the University from interference and domination by outside interests, whether these be commercial, governmental, or ecclesiastical. The Baptist stress upon an uncoerced conscience in matters of religious belief has been translated into a concern for academic freedom. The Baptist emphasis upon revealed truth enables a strong religious critique of human reason, even as the claims of revelation are put under the scrutiny of reason. The character of intellectual life at Wake Forest encourages open and frank dialogue and provides assurance that the University will be ecumenical and not provincial in scope, and that it must encompass perspectives other than the Christian. Wake Forest thus seeks to maintain and invigorate what is noblest in its religious heritage.

Statement of Principle on Diversity

Wake Forest University is a community of men and women that seeks the enlightenment and freedom which come through diligent study and learning. Its higher goal, however, is to give life to the University motto "Pro Humanitate," as members translate a passion for knowledge into compassionate service.

The community shares a tradition that embraces freedom and integrity and acknowledges the worth of the individual. The heritage, established by the school's founders and nurtured by succeeding generations, promotes a democratic spirit arising from open-mindedness and discourse.

Wake Forest fosters compassion and caring for others. Its collective strength and character are derived from the values and distinctive experiences of each individual; therefore, it affirms the richness of human intellect and culture and its contribution to knowledge, faith, reason, and dialogue. Furthermore, it strives toward a society in which good will, respect, and equality prevail. To that end, Wake Forest University rejects hatred and bigotry in any form and promotes justice, honor, and mutual trust.

Chronological History of Wake Forest University

- 1834 Founded in Wake County, N.C., as Wake Forest Manual Labor Institute in cooperation with the N.C. Baptist Convention
- 1838 Named Wake Forest College
- 1894 School of Law established
- 1902 School of Medicine founded
- 1921 First Summer Session
- 1936 Approval of the School of Law by the American Bar Association
- 1941 Relocation of the School of Medicine to Winston-Salem and eventual change of name to Bowman Gray School of Medicine and association with the North Carolina Baptist Hospital
- 1942 Women admitted as undergraduate students

- 1948 School of Business Administration established
- 1956 Move to Winston-Salem in response to an endowment from the Z. Smith Reynolds Foundation
- 1961 Division of Graduate Studies established
- 1967 Became Wake Forest University
- 1969 School of Business Administration renamed Charles H. Babcock School of Business Administration
- 1972 Charles H. Babcock Graduate School of Management enrolled first graduate students. Department of Business and Accountancy and a Department of Economics established in the College.
- 1980 Department of Business and Accountancy renamed School of Business and Accountancy
- 1986 Redefined the relationship with the N.C. Baptist State Convention
- 1995 School of Business and Accountancy changed name to Wayne Calloway School of Business and Accountancy
- 1997 Change of name to Wake Forest University School of Medicine
- 1999 Opening of the Wake Forest University School of Divinity
- 2002 Incorporation of Wake Forest University Health Science

Accreditation

Wake Forest University is a Member of or Accredited by:

AACSB International – The Association to Advance Collegiate Schools of Business
 American Bar Association
 American Chemical Society
 American Council on Education
 Accreditation Review Commission on Education for the Physician Assistant of the American Medical Association

Information Systems (Reynolda Campus)

Information Systems (Reynolda Campus) Information Systems supports University instruction, research, and administrative needs through computing and telecommunications services. The campus computer network offers wired and wireless high-speed connectivity from all campus buildings.

All students on the Reynolda Campus are given a network login ID; the login ID is maintained as long as the student is enrolled. This account provides students with access to networked computer resources such as electronic mail, client-server software packages, various courseware applications, and administrative services. During the 2015-2016 academic year, first year students received a new ThinkPad computer as part of their tuition. ThinkPad model specifications can be found on the Information Systems web site at help.wfu.edu. Standard software for the ThinkPad includes Windows 8, Microsoft Office 365, digital media tools, and Mozilla Firefox. The ThinkPad also has a variety of research, analytical, and development tools, as well as the latest version of Endpoint Protection AntiVirus software. Maintenance and support for the ThinkPad computers is provided on campus through The Bridge, a service center, located on the main floor of the Z. Smith Reynolds Library. Loaner computers are available for students as needed.

Information Systems maintains an extensive array of online resources that support University admissions, student registration, grade processing, payroll administration, finance and accounting services, and many other administrative and academic applications. In addition, the Wake Forest Information Network (WIN) provides the University community with features like faculty, staff, and student directories; online class registration; electronic access to view payroll and tax information; and vehicle registration.

Students also have access to computing resources outside the University. The University is a member of the Inter-University Consortium for Political and Social Research (ICPSR), located at the University of Michigan. Membership in ICPSR provides faculty and students with access to a large library of data files, including public opinion surveys, cross-cultural data, financial data, and complete census data. The University is also a member of EDUCAUSE, a national consortium of colleges and universities concerned with computing issues.

The University's computing resources serve both academic and business needs. Wake Forest's network infrastructure includes a ten gigabit per second Ethernet backbone, a mixture of 100 Megabit and 1 Gigabit per second switched connectivity to the desktop, and pervasive wireless connectivity in all campus buildings. LINUX and Windows-based servers provide for business computing needs and services. A mix of LINUX systems and Windows-based systems provide for messaging, systems management, Internet, intranet, courseware, various research needs, and file and print services. A LINUX supercomputing cluster provides supercomputing services for math, computer science, physics, and other scientific research applications. These systems are available to students, faculty, and staff 24 hours a day through the Wake Forest University network or over the Internet. All connections are protected by VPN and firewalls.

Programming languages available on the various academic computing systems include C, C++, Java, Perl, Python, Tcl/Tk, Fortran77 and Objective C/Swift for iPad/iTouch programming. Students are exposed to a variety of operating systems through virtualization. Students, faculty and staff have access to a large variety of instructional, classroom, and research resources through the campus network including the online catalog, databases, and electronic journals provided by the Z. Smith Reynolds Library.

Many departments on campus have their own computing resources in addition to those available through the Information Systems Department. The Digital Media Lab, located on the main floor of the Z. Smith Reynolds Library, offers additional technology resources. In addition to the tools provided by Wake Forest, the Department of Mathematics and Statistics has a server made available to students that may need more computational power to run programs such as Maple, Mathematica, MatLab, SAS, SPSS and a full suite of GNU compiler tools.

Through the use of operating system virtualization, the Department of Computer Science is able to offer a unique set of software tools that allow students to experience the nuances of various operating systems. Depending on the class, students may find themselves working on one of the many varieties of UNIX that are available in today's marketplace. These may include Ubuntu, Debian and Red Hat Linux as well as Oracle Solaris 11. Students also have access to various mobile platforms including the iPad, iPhone and Android platform. In addition students have access to 16 GPU servers (Graphics Processing Units) utilized in classes teaching CUDA stream programming. The CS Department also has a MakerBot 3D printer and multiple Raspberry Pi computers, tablets, sensors, and Roomba iCreate robots, to name a few, all for students to use and explore in various "STEM" classes.

Students and faculty have access to the Wake Forest DEAC Cluster, a high performance Linux cluster with 271 nodes with 3100+ processor cores with 20TB of RAM, limited Infiniband connectivity, and 92TB of storage. The Wake Forest DEAC cluster currently offers the computational research community a wide variety of commercial scientific software as well as open source middleware necessary to effectively and efficiently utilize the high performance computing cluster. Many campus wide licensed software packages available on the Wake Forest issued laptops are available on the cluster as well. Currently, researchers on the cluster have dedicated access to: any Red Hat Enterprise Linux 6 provided software; Fortran 77 and Fortran 90 compilers from Intel, a variety of MPI implementations (Open MPI, MPICH2 from Argonne National Lab, MVAPICH2 from Ohio State University, and commercial software packages such as Matlab R2015b, Maple18, Mathematica10.3 and ITT IDL.

All Residence hall rooms are equipped with cable TV programming and the capability for VoIP technology. Cable television, while providing a recreational outlet, plays an important role by providing access to campus information and educational offerings. Information Systems also offers 142 channels of CATV service to include 68 select HDTV channels and 44 music channels to students in residence halls.

Information Systems provides assistance online at help.wfu.edu, by telephone at 336-758-HELP (4357) and supports walk-in customers at The Bridge located on the main floor of the Z. Smith Reynolds Library. The Bridge provides assistance with information technology services including computer repair, software access, equipment loans, and purchases. The Bridge is a partnership of the Z. Smith Reynolds Library and Information Systems. Hours of operation are posted online at help.wfu.edu/hours. Students have 24-hour access to online support resources at help.wfu.edu.

More than 50 students are involved in Information Systems student technology programs. Students work in a number of settings that include providing direct support for students, faculty, and staff.

Libraries

The libraries of Wake Forest University support instruction and research at the undergraduate level and in the disciplines awarding graduate degrees. The libraries of the University hold membership in the Association of Southeastern Research Libraries. They rank among the top libraries in the Southeast in expenditures per student.

The Wake Forest University libraries include the Z. Smith Reynolds (ZSR) Library, which is located on the Reynolda Campus and supports the undergraduate College, the Wake Forest School of Business programs, the Graduate School of Arts and Sciences, and the School of Divinity. The Professional Center Library, housed in the Worrell Professional Center on the Reynolda Campus, serves the School of Law. The Coy C. Carpenter Library serves the Wake Forest School of Medicine and is located on the Bowman Gray Campus.

The three library collections total over 2.5 million titles, including more than 50,000 electronic journals as well as e-books and streaming media. The ZSR Library serves as a congressionally designated selective federal depository. The Professional Center Library holds nearly 180,000 volumes and the Coy C. Carpenter Library holds nearly 150,000 volumes. The three libraries share an online catalog, which also provides access to electronic resources, journals and databases. Through interlibrary loan service, students, faculty and staff may obtain materials from other libraries at no charge.

The Z. Smith Reynolds Library provides comprehensive reference and research services in-person and online. Subject specialist library faculty work with individual classes across the disciplines on research papers and one-on-one with students at all phases of the research process. Library faculty also teach elective courses in the fundamentals of research and information literacy and upper-level courses geared towards research in the disciplines.

Special Collections & Archives (SCA) in Z. Smith Reynolds Library is the repository for the Baptist Historical Collection of North Carolina (also known as the Ethel Taylor Crittenden Collection), Manuscripts, Rare Books, and the University Archives. The Baptist Historical Collection contains significant books, periodicals, manuscripts, and church records relating to North Carolina Baptists, as well as the personal papers of prominent ministers, educators, and government officials with ties to Wake Forest. SCA's Manuscripts include the papers of alumnus Harold Hayes, editor of *Esquire* magazine in the 1960s–1970s, the Maya Angelou works for theater, television and screen, and the records of the Dolmen Press. The Rare Book Collection, greatly enhanced by the donation of rare and fine books of the late Charles H. Babcock, emphasizes American and British authors of the 19th and 20th centuries. Among the collections are works of Mark Twain, Gertrude Stein, William Butler Yeats, T.S. Eliot and publications of the Hogarth Press. SCA maintains the University Archives which serves as the primary repository for the historical records of Wake Forest University. The University Archives collects, describes, preserves and exhibits University records that contain historical, administrative, legal, or fiscal value. The records include documentation of the student experience, departmental records, and the papers of faculty and alumni. All are welcome to use SCA collections, many of which are available online, and to visit the Research Room, which hosts frequent and changing exhibits.

Facilities in the Z. Smith Reynolds Library include “The Bridge,” a collaborative service between Information Systems and the library. Faculty, students, and staff can bring their University-issued laptops for repair. An assortment of technology devices is available for checkout. The library has ten group study rooms that are equipped with SMART Board technology. These rooms can be booked online at zsr.wfu.edu/studyrooms. Multimedia computers are available on the fourth floor and Media viewing stations are available in Reynolds Wing Room 403. The Writing Center is located in the library, and faculty and tutors are accessible to students throughout their writing process. The library has a 118-seat auditorium for use by Wake Forest community groups for programs, lectures, and film screenings. There is also the ZieSta Room, a space for students to take a break from studying to nap or rest in comfortable loungers.

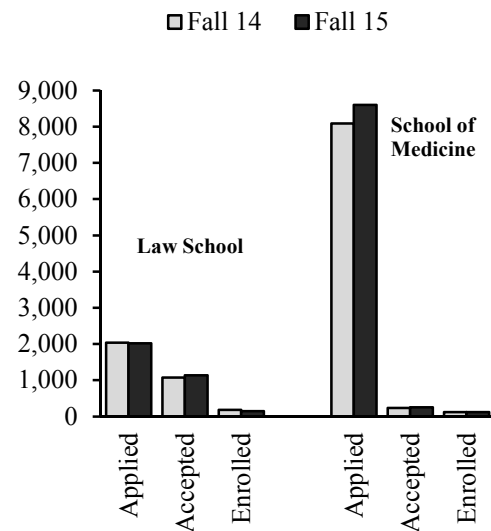

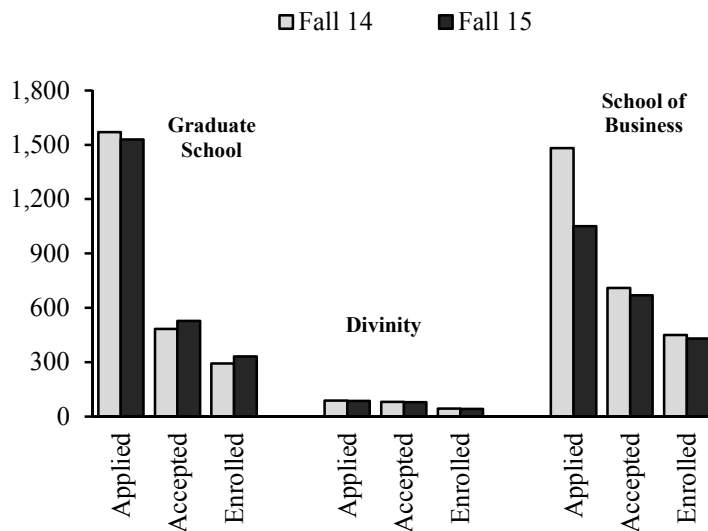

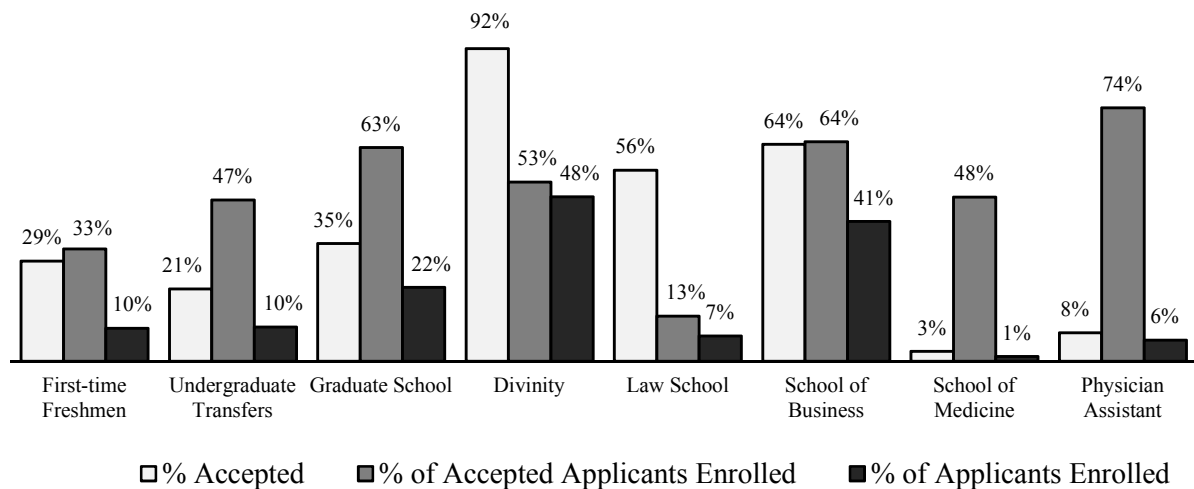

The library is open continuously during the fall and spring semesters 24 hours a day from Sunday through Thursday. When the library is not on its 24-hour schedule, two 24-hour study rooms are available located near the entrance to the library that may be accessed by keycard. The study room on one side houses a Starbucks. A full description of the Z. Smith Reynolds Library resources and services is found at <http://zsr.wfu.edu>.

*This column was previously titled "Allied Health." In the years 2002-03 through 2006-07, the Allied Health Category included the Nurse Anesthesia and Physician Assistant programs in which students earned graduate degrees. The Medical Technology program, although also a part of Allied Health, was counted as "Undergraduate" since no graduate degree was awarded. Beginning in 2007-08, Medical Technology and Nurse Anesthesia were no longer counted as University programs and "Allied Health" became exclusively the Physician Assistant program.

**Nurse Anesthesia was changed to a Wake Forest University program beginning in 2014-15

() = Reynolda Campus undergraduate students (excludes Study Abroad)
